

View Online at <https://aerobasegroup.com/nsn/6625-01-137-4676>

Special Features:

Freq. Range: 0.000001 hz to 20.999999999 mhz; high stability freq. Reference; high voltage output; function generator provides sine, square, triangle and negative and positive ramp waveforms; wideband phase continuous sweep to full freq. Of ea. Waveform; full programmable; waveforms can be dc and phase offset; 50 ohms output impedance all waveforms; operates 0 to 55 deg. C to 15000 ft; pwr rqmts: 100 to 240 v ac, 48 to 66 hz; dims: 19.63 in. L; 16.75 in. W; 5.25 in. H; rack flange and handle combination kit; accessory: ground isolator to break signal grounds between input/output connectors

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
