Overall Length:

19.700 inches

Overall Height:

6.900 inches

Overall Width:

12.900 inches

Ac Voltage Rating:

Between 90.0 volts and 250.0 volts

Frequency Rating:

Between 48.0 hertz and 440.0 hertz

Frequency Range Rating:

+0.00005/+220.00000 gigahertz

Unit Type:

Standard

Frequency Calibration Accuracy Range In Percent:

-0.2/+0.2

Mounting Method:

Case mounted portable and bench

Recording Device Type:

Camera and graphic pen/ink

Cathode Ray Tube Displayed Information:

Reference level; center frequency; frequency range; vertical display mode; frequency span division resolution bandwidth; radio frequency attenuation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A532p0
