End Application:

6625-01-102-2941

Circuit Construction Type:

Solid state

Frequency Per Channel:

20.0 hertz operating channel and 50.0 megahertz operating channel

Pulse Duration Per Channel:

10.000 nanoseconds operating channel and 50.000 microseconds operating channel

Pulse Peak Amplitude Per Channel:

5.000 volts operating channel

Special Features:

Ttl driver; dual output

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A32200
