End Application:

Pressure simulator module p/n 2893318, 359500-?, and 3595010-? For the a-10 aircraft

Component Type And Quantity:

1 switch and 3 solenoid and 1 tube and 2 adapter and 8 conductor and 1 connector and 1 block and 1 filter

Special Features:

Manifold assembly (pt), provides accurate static and total pressure stimuli to altitude and airspeed systems for fault detection, isolation, calibration and leak testing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A51110
