Overall Length:

17.000 inches

Overall Height:

4.000 inches

Overall Width:

3.125 inches

Basic Shape Style:

Rectangular or square

Accuracy Range In Percent:

-0.01/+0.01

Overall Electrical Value Range:

+0.010/+1111.110 kilohms

Special Features:

This item is designed to be used as a sub for rtd's in temp measurement systems; in use, pigtails on cable are attached to decade box binding posts, connector is subbed for inlet air probe assembly connector; & decade box is set to provide appropriate test resistance; actual readout is compared w/expected readout

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A31500
