Ac Voltage Rating:

115.0 volts

Dc Voltage Rating:

5.0 volts and 28.0 volts

Frequency Rating:

400.0 hertz

Major Components:

5v power supply, 28v power supply and digital panel meter

Accessory Component Quantity:

3

End Application:

Aircraft instrumentation system (ais), an/asq-t13

Electrical Power Source Relationship:

Operating

Inclosure Feature:

Multiple item w/housing

Test Type For Which Designed:

Aircraft instrumentation system

Special Features:

Assigned name: test set, signal conditioner

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-a
