**Inclosure Material:**

Aluminum

**Dc Voltage Rating:**

26.5 volts

**End Application:**

5895-01-149-1437, antenna coupler; am-7148/grc-206

**Closure:**

Included

**Test Type:**

Amplification

**Amplifier Channel Accommodation:**

Single

**Indicator:**

Included

**Special Features:**

Assigned name: test set, amplifier; c/o test jacks; indicators; mounting/cooling air provided; storage case; rack and/or bench top mounted

**Functional Description:**

Test set, amplifier low pass filter

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T228-g
