Inclosure Material:

Aluminum

Dc Voltage Rating:

26.5 volts

End Application:

5895-01-149-1437, antenna coupler; am-7148/grc-206

Closure:

Included

Test Type:

Amplification

Amplifier Channel Accommodation:

Single

Indicator:

Included

Special Features:

Assigned name: test set, amplifier; c/o test jacks; indicators; mounting/cooling air provided; storage case; rack and/or bench top mounted

Functional Description:

Test set, amplifier low pass filter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-g
