**Ac Voltage Rating:**

155.0 volts

**Frequency Rating:**

400.0 hertz

**End Application:**

An/apn-169c

**Phase:**

Three

**Special Features:**

C/o 1 test set cover; 1 decoder-encoder test set; 2 cable assemblies; accepts and processes coded altitude, flight maneuvering commands; is microprocessor controlled/provides test capability for updated an/apn-169 (v) information positioning set; o/a dim. 22.250 in. Lg, 16.120 in. W, 17.310 in. H

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T228-a
