Ac Voltage Rating:

155.0 volts

Frequency Rating:

400.0 hertz

End Application:

An/apn-169c

Phase:

Three

Special Features:

C/o 1 test set cover; 1 decoder-encoder test set; 2 cable assemblies; accepts and processes coded altitude, flight maneuvering commands; is microprocessor controlled/provides test capability for updated an/apn-169 (v) information positioning set; o/a dim. 22.250 in. Lg, 16.120 in. W, 17.310 in. H

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T228-a
