End Application:

Eg, used with multiple systems

Product Name:

Tester relay

Special Features:

Metal enclosure; 12.000 in. Long; 7.000 in. Wide; 3.000 in. High; 3 percentage of max. Output voltage dials, with 0 to 100 range; 3 1 amp, 250 volt fuses; four conductor cable on each end of tester, each wire has an alligator clip terminal

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-a
