**End Application:**

Eg, used with multiple systems

**Product Name:**

Tester relay

**Special Features:**

Metal enclosure; 12.000 in. Long; 7.000 in. Wide; 3.000 in. High; 3 percentage of max. Output voltage dials, with 0 to 100 range; 3 1 amp, 250 voltfuses; four conductor cable on each end of tester, each wire has an alligator clip terminal

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T228-a
