Indicator Type:

Cathode ray tube

Special Features:

System inclds synthesized networkanalyzer, phase-locked source, s-parameter test set, desktop computer, software

Functional Description:

Hi-performance microwave network measurement system

Supplementary Features:

2-bay rack; freq range 110 mhz to18 ghz in two bands

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T263-c
