End Application:
F-16 aircraft age
Special Features:
C/oinstrument case; drawer; video sweep generator; signal source; high voltage probe; 100x probe; power strip; 115.0 vac, 60.0 hz,
single phase
Functional Description:
Used in conjunction with 20 additional units that comprise an/tsm-138 electrical standards set for on-site troubleshooting/repair/calibration of
f-16 avionics equipment
Reference Data And Literature:
T.O.33a1-3-518-1
Fsc Application Data:
An/tsm-138 electrical standards set
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
Yes - demil/mli
