Circuit Current For Which Designed:

Ac

Overall Length:

3.220 inches

Frequency Rating:

400.0 hertz

Indicator Type:

Dial w/pointer

Installation Design:

Panel

Dial Scale Marking Color:

Black single indicator single range and red single indicator single range

Background Color:

White single indicator single range

Pointer Color:

Black single indicator single range

Scale Graduation Type:

Nonlinear single indicator single range

Measurement Range:

-20.0/+3.0 decibels single indicator single range

Circuit Attachment Method And Quantity:

4 screw

Operating Voltage Rating In Volts:

5.0 ac

Style Designator:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A310a0
