End Application:

AN/T-PQ-435-8400

Inclosure Feature:

Multiple item w/housing

Test Type For Which Designed:

Optic brassboard test set

Special Features:

Front/rear output terminals; bench or rack mtg; front panel selectable voltage/current meter, full scale w/ 3 pct accuracy

Functional Description:

Monitors constant voltage & current; remote sensing/programming; auto-series; parallel tracking

Supplementary Features:

Proprietary

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-a
