End Application:

Rtp universal controller; test station, circuit, carousel depot

Special Features:

Hybrid and monolithic integrated circuit components; 12-bit binary resolution; bipolar and unipolar voltage outputs; four channels; 0 to plus 10

24-volt outputs; plugin type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
