Overall Length:

2.120 inches

Overall Height:

0.540 inches

Overall Width:

1.000 inches

Frequency Rating:

10.0 megahertz and 100.0 megahertz

Voltage Standing Wave Ratio:

1.30

Insertion Loss In Decibels:

0.7

Special Features:

Finish tin plate iaw mil-t-10727 type 1; two 0.160 in. Diameter mtg holes on 1.750 in. Mtg ctr; one i/p, four o/p sma type rcpt connectors for four way power division; 30 db min isolation; 0.2 db maximum amplitude balance; 1 degrees maximum phase balance; 50 ohms i/p and o/p impedance; 6 db coupling; 2 w power matched loads; 0 to 65 degrees c oper, m62 to p75 degrees c nonoperating temp range

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A512n0
