Ac Voltage Rating:

208.0 volts

Frequency Rating:

60.0 hertz

Major Components:

Crt keyboard terminal; printer; storage unit

Electrical Power Source Relationship:

Operating

Inclosure Feature:

Multiple item w/housing

Test Type For Which Designed:

Validation of cable harnesses, wired assemblies and printed wiring boards; continuity test; leakage test; ac hi-pot test; voltage, current, resistance measurements

Phase:

Three

Special Features:

Self programming; self test; automatic complete continuity scan; test search; leakage fail evaluate; broken loop scan; flexible automatic circuit tester

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-a
