**Ac Voltage Rating:**

208.0 volts

**Frequency Rating:**

60.0 hertz

**Major Components:**

Crt keyboard terminal; printer; storage unit

**Electrical Power Source Relationship:**

Operating

**Inclosure Feature:**

Multiple item w/housing

**Test Type For Which Designed:**

Validation of cable harnesses, wired assemblies and printed wiring boards; continuity test; leakage test; ac hi-pot test; voltage, current, resistance measurements

**Phase:**

Three

**Special Features:**

Self programming; self test; automatic complete continuity scan; test search; leakage fail evaluate; broken loop scan; flexible automatic circuit tester

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T228-a
