Ac Voltage Rating:

Between 115.0 volts and 230.0 volts

End Application:

B1b aircraft

Panel Material:

Any acceptable

Test Item Mounting Accommodation:

Jacks

Special Features:

4 section to test unique items; 3 128 pin interface connectors; interface with digital multimeter, oscilloscope, ac power amplifier, 400 hz frequency oscillator, megohmmeter, milliohmmeter, ir tester, dwv tester, capacitance tester

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T122-a
