Special Features:

30 megahz to 1 ghz range; vswr 3: 1; sma connector; 0.5 w max. Input power; hand held; dual loop; temp range 0-40 degrees c; balun structure

Functional Description:

Measure radiation from surface current, slots & cables; ideal for pcb, cabling and shieled enclosures; used w/spectrum analyzers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T224-a
