**Special Features:**

30 megahz to 1 ghz range; vswr 3: 1; sma connector; 0.5 w max. Input power; hand held; dual loop; temp range 0-40 degrees c; balun structure

**Functional Description:**

Measure radiation from surface current, slots & cables; ideal for pcb, cabling and shieled enclosures; used w/spectrum analyzers

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T224-a
