**End Application:**

Kc-135r

**Test Type For Which Designed:**

Supplies 10.0 vac to power lever transducer, check output of transducer when power level is rotated from 0 to 130 deg; torque motor continuity ck, electrical speed trim schedule

**Functional Classification:**

Aa-9.2

**Special Features:**

Incls top cover and cables

**Entry Date:**

92-07-27

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T228-a
