Electronic Systems Test Set - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6625-01-246-1729

End Application:
Kc-135r
Test Type For Which Designed:
Supplies 10.0 vac to power lever transducer, check output of transducer when power level is rotated from 0 to 130 deg; torque motor
continuity ck, electrical speed trim schedule
Functional Classification:
Aa-9.2
Special Features:
Incls top cover and cables
Entry Date:
92-07-27
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T228-a
