End Application:

Kc-135r

Test Type For Which Designed:

Supplies 10.0 vac to power lever transducer, check output of transducer when power level is rotated from 0 to 130 deg; torque motor continuity ck, electrical speed trim schedule

Functional Classification:

Aa-9.2

Special Features:

Incls top cover and cables

Entry Date:

92-07-27

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T228-a
