Circuit Current For Which Designed:

Ac

Installation Design:

Bench

Operating Voltage Rating In Volts:

120.0 ac

Material:

Aluminum

Supplementary Features:

Contains all functions to test conductive wrist straps, floor and work surface mats, and other conductive items for static; indicators glows when in range of 200 ohms to 1, 000 megohms; has audio alarm; tests soldering irons for ac voltage or transient spikes; tiltable stand; wt 1 lb, 12 oz; output p12vdc alarm signal; accuracy porm10 degrees typical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A310a0
