Special Features:

Auto range selection w/manual override; freq. Range upper 160 mhz, lower 1 mhz, resolution 0.1 to 1 hz; switching time 2 to 34 ms; volatile memory 9; special purity harmonics 50 dbc, non-harmonics 60 dbc; am & fm freq. Modulation; amplitude impedance 75 ohms; output: upper plus 27 dbm, lower minus 55 dbm, resolution 0.01 dbm; 7 digit led display of freq., 4 digit led of stored dbm or stored voltage; high performance tcxo, compatible with ieee standard 488; oper pwr 115 v or 230 v ac; 50 to 60 hz; 19 in. L; 8.5 in. W; 5.25 in. H; power cord included

Shelf Life:

N/a

Unit Of Measure:
