Major Components:

Spectrum analyzer; counter-timer; oscilloscope; scaler network analyzer; detector; pulse function generator

End Application:

5865-01-200-6601, radome, an/alq-18 (v) 1/2

Inclosure Feature:

Multiple item w/housing

Functional Description:

Simulates signals; measures technique parameters; functions not programmable by the techniques generator unit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-a
