Overall Length:

6.380 inches

Overall Height:

3.250 inches

Overall Width:

6.250 inches

End Application:

Test set, electronic equipment

Criticality Code Justification:

Feat

Component Type And Quantity:

1 bracket and 12 switch

Special Features:

Weapon system essential; marked: mode test off; self test; module test; includes 1 panel logic test; 1 comparator voltage, 1 terminal board assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
