Overall Length:

4.260 inches

Overall Height:

0.350 inches

Overall Width:

1.300 inches

Frequency Rating:

Between 0.25 gigahertz and 2.00 gigahertz

Special Features:

6lusterless blue epoxy; two 0.250 in. Diameter mtg holes on 1.000 in. Mtg cntrs; 0.5 db maximum insertion loss, excluding dividing loss; 20.0 db min isolating; 1.35 to 1.00 maximum input vswr, 1.35 to 1.00 maximum output vswr; three female sma rf connectors; one input, two output; 32 to 100 degrees f operating temp and -30 to 150 degrees f storage temp ranges; 25.0 to 32.0 in. Of mercury pressure; up to 80% w/o condensation operating humidity and up to 100% with condensation non-operating; meets requirements for mil-e-4158

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
