Overall Length:

24.400 inches

Overall Height:

5.700 inches

Overall Width:

16.800 inches

Current Type:

Ac

Frequency Rating:

Between 48.0 hertz and 66.0 hertz

Frequency Range Rating:

+2.000/+18.000 gigahertz

End Application:

4920-01-188-3639 test station, microwave

Voltage Rating:

Between 100.0 volts and 240.0 volts

Modulation Type:

Am and fm and pulse

Modulator Location:

Internal

Phase:

Two

Special Features:

Remote programing; operating temp 0.0 degrees c to plus 55.0 degrees c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T320-j
