End Application:

Mmeas transitional test lab

Accessory Components And Quantity:

Rack flange kit 1; extra manual 1; 100mhz divider probe 2

Special Features:

1 gigasample/second two-channel, digitizing w/8k samples memory depth; automatic measurements; autoscaling, cursors, color display; scroll; zoom and memory bar; 500 mhz repetitive bandwidth; 250 mhz single-shot bandwidth; up to 8 bits of vertical resolution w/ bandwidth limits; hp-ib programmable; hardcopy output; flexible display modes; high speed ecl design; laser and high energy research

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T320-g
