Current Type:

Dc

Frequency Rating:

100.0 megahertz

End Application:

Secure command and control (c2) switch (secure telephone hook-up)

Accuracy Range In Percent:

-0.0/+2.0

Sweep Circuits:

Included

Sweep Circuit Type:

Horizontal and vertical

Special Features:

4 channel; on-screen scale factor readout; flexible triggering; delayed sweep; control status lights; inclvs voltmeter; 2 mv div vertical sensitivity; labeled volts cursors with ground referenced readings

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T320-g
