Circuit Current For Which Designed:

Dc

Installation Design:

Hand held

Circuit Attachment Method And Quantity:

1 wire lead

Operating Voltage Rating In Volts:

500.0 dc

Functional Description:

Measures paint gun (p/n 218-668) resistance between end of gun electro and air inlet on gun handle

Nuclear Hardness Critical Feature:

Nonhardened

Style Designator:

Rectangular or square

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A310a0
