Special Features:

30 simultaneous measurements; measures total errors, error seconds, current error rate, pct error-free seconds, average error rate, threshold errorseconds, dribbling error rate, dribbling total errors, event seconds, time; operates at ds3 transmission rate; works at 6db above high level and more than 26db below dsx cross-connect point; rs-232c optional

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T228-a
