**Unit Type:**

Signal conditioner

**Special Features:**

Provides bridge completion, balance, calibration circuits for strain gage and 1-, 2-, 4-arm bridge transducers, also provides calibration/balance circuits for rtds and potentiometers, bridge completion for asymmetrical bridges; voltage excitation 0.1-18 v; current 125 ma; current excitation 1-100 ma; 10000 mohms isolation

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T228-b
