Overall Length:

9.000 inches

Overall Height:

2.750 inches

Overall Width:

5.250 inches

Unit Type:

Amplifier

Special Features:

Dual mode differential operation to reject up to 120 db; led indicators for gain calibration and ground null adjustments; output current to 100 ma; freq response to 350 khz

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T228-b
