**Overall Length:**

9.000 inches

**Overall Height:**

2.750 inches

**Overall Width:**

5.250 inches

**Unit Type:**

Amplifier

**Special Features:**

Dual mode differential operation to reject up to 120 db; led indicators for gain calibration and ground null adjustments; output current to 100 ma; freq response to 350 khz

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T228-b
