Circuit Current For Which Designed:

Ac and dc

Overall Length:

17.000 inches

Overall Height:

3.500 inches

Overall Width:

16.500 inches

Indicator Type:

Digital display

Installation Design:

Rack

Display Type:

Liquid crystal

Display Digit Quantity:

7-1/2

Measurement Range:

+300.0/+500.0 kilohertz single indicator 4th range

Accuracy Rating:

Porm 0.75 pct of reading plus 50 digits single indicator 1st range

Operating Voltage Rating In Volts:

Between 0.2 ac and 750.0 ac and 0.2 dc and 1000.0 dc

Functional Classification:

Aa-1.4

Special Features:

Hi/low signal input with guard terminal and hi/low sence input- 5 way banna input

Entry Date:

92-07-15

Style Designator:

D1 rectangular or square

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A310a0
