Overall Length:

24.000 inches

Overall Height:

6.600 inches

Overall Width:

17.500 inches

Ac Voltage Rating:

100.0 volts and 120.0 volts and 220.0 volts and 240.0 volts

Frequency Rating:

Between 47.0 hertz and 63.0 hertz

Electrical Power Source Relationship:

Operating

Recording Method:

Chart paper

Information Recorded:

Thermal transfer

Phase:

Single

Special Features:

Print resolution 300 dpi; dot size 0.004 inch; print lines 300/inch; print width 11.7 inch; writing speed 1.0 inch/sec; includes front panel controls and indicators for form length, paper format, top of form, advance, start, stop, dark/light, offline, ribbon, error; weight 50 lbs; can print on roll paper, fanfold or individual sheets

Supplementary Features:

Manufacturers name: visigraph

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T198-a
