Overall Length:

17.400 inches

Overall Height:

5.200 inches

Overall Width:

13.500 inches

Ac Voltage Rating:

115.0 volts and 230.0 volts

Frequency Rating:

Between 50.0 hertz and 60.0 hertz

Electrical Power Source Relationship:

Operating

Installation Design:

Portable

Recording Method:

Sheet or z-fold paper

Channel Quantity:

2

Information Recorded:

Xy and line recording

Phase:

Single

Special Features:

Dual pen; height slew rate to record fast signals; auto-zero suppression; 24 time base settings/chart speeds; mtbf of over 20000.0 hrs; keyboard operation w/lcd indication for each channel setting

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T198-a
