Overall Length:

16.750 inches

Overall Height:

5.220 inches

Overall Width:

13.000 inches

Indicator Type:

Digital display

Installation Design:

Rack

Display Type:

Light emitting diode

Display Digit Quantity:

3

Accuracy Rating:

Form 5 pct of reading single indicator single range

Operating Voltage Rating In Volts:

Between 100.0 ac and 240.0 ac

Special Features:

Poption four provides data output in a binary-coded decimal format; altered meter p/n 1018bopt02-04, by changing to rack mounting; wt 16lbs; blue with contrasting light blue panel; measurement range 0.1/18.0 gigahertz

Style Designator:

Rectangular or square

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A310a0
