Overall Length:

2.970 inches

Overall Height:

0.400 inches

Overall Width:

2.380 inches

Frequency Rating:

Between 0.5 gigahertz and 1.0 gigahertz

Insertion Loss In Decibels:

0.9

Power Rating:

10.0 watts average

Special Features:

Two 0.102 to 0.108 in. Diameter mtg holes on 2.138 to 2.168 in. Mounting centers; one input and four output sma female connectors for four way power division; vswr: 1.45 maximum input, 1.3 maximum output; isolation 22 db min; amplitude balance 0.3 db max; phase balance: 3.0 degrees max; single phase; operating temp range: -55 to 105 deg. C

Unpackaged Unit Weight:

80.0 grams

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A512n0
