Overall Length:

20.800 inches

Overall Height:

3.500 inches

Overall Width:

16.700 inches

End Application:

Calibration standards equipment

Basic Shape Style:

Rectangular or square

Circuit Construction Type:

Solid state

Special Features:

Down converts microwave signals above 1.3 ghz to the 150 khz to 1.3 ghz range. Signles below 1.3 ghz are routed with out conversion

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
