Functional Description:

Interfaces mechanical/electrical

Supplementary Features:

Provides station power and stimulus to unit under test and unit under test stimulus to the station; tests code generator power supply p/n

643-6971-001 for time code generator 622-9559-001

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537k0
