| C | Overall Length:                            |
|---|--|
| 1 | 9.500 inches                               |
| ( | Overall Height:                            |
| 7 | .500 inches                                |
| C | Overall Width:                             |
| 1 | 1.750 inches                               |
| ŀ | c Voltage Rating:                          |
| E | setween 120.0 volts and 240.0 volts        |
| F | requency Rating:                           |
| E | Setween 50.0 hertz and 60.0 hertz          |
| l | nstallation Design:                        |
| F | Panel                                      |
| C | Dutput Current Type:                       |
| A | ic and dc                                  |
| N | leter Type:                                |
| A | mmeter and voltmeter                       |
| Ν | leter Quantity:                            |
| 1 | and 1                                      |
| S | scale Range:                               |
| + | 0.0/+12.0 kilovolts                        |
| C | Dutput Frequency Rating:                   |
| E | Setween 50.0 hertz and 60.0 hertz          |
| C | Dutput Voltage Rating:                     |
| E | etween 0.000 kilovolts and 6.000 kilovolts |
| C | Dutput Current Rating:                     |
| 8 | .900 milliamperes                          |
| L | eakage Indicator Type:                     |
| Ν | /leter                                     |
| F | Phase:                                     |
| S | lingle                                     |
| S | Shelf Life:                                |
| ٢ | I/a  |
| ι | Init Of Measure:                           |
| - |  |
| C | Demilitarization:                          |
| ٢ | lo   |
| F | iig:                                       |
| Т | 228-c                                      |
