End Application:

4920-01-138-4421

Special Features:

C/o chassis, system clock; power divider, 8 way; oscillator; attenuator, fixed; power supply converter; connector 5; terminal, stud, ground; cable

Functional Description:

Used on the test set, electronic circuit plug-in unit, used to support the e-3a acft; t.O.33d7-38-114-64; provides 10 mhz reference signal to several measuring divices

Fsc Application Data:

An/gsm-285 test equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
