Ac Voltage Rating:

120.0 volts

Frequency Rating:

60.0 hertz

Electrical Power Source Relationship:

Operating

Special Features:

Mfg name-bit error tester

Functional Description:

Receiver that operates at the ft3c rate (90 mb/s) and provides inferred bit error-rate information on the ft3c signal by measuring the parity errors

Supplementary Features:

Portable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T263-c
