**Special Features:**

Provides direct electrical interface between unit under test connectors and the mate station interface connector assembly digital word generator pin field; input dc power; p5vdc output; contains wire and resistors for proper termination and self testing; cable storage

**Fsc Application Data:**

Milstar

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A17600
